Bucket Wheel Reclaimer Shaft

Custom Forged Shaft

ISO 9001

BUREAU VERITAS
Certification

Proof machined 3 tonne 3.5m custom forged shaft, project-managed and quality certified from start to finish. Expedited delivery to a local machining partner for a major reclaimer shutdown at a Bauxite operation.

This 4140S rough machined shaft was urgently required for a long-term customer; and was manufactured, inspected and delivered in 10 weeks through FFF Australia's global supply partner network.

With 20+ years of international strategic sourcing experience, we are specialists in finding the right supply partner for custom forged components.

We take responsibility for the entire supply chain; ensuring supplier QA/QC, shipping & expediting, testing and MDR certification.

Get in touch with us to see how we can make you more successful, one order at a time.

International Strategic Sourcing Specialists giving all Australian businesses access to the global supply chain.
